Cassandra Nillver was a psychiatrist who worked in a hospital for the criminally insane. There she treated the nefarious criminal Mindstorm who unknown to her had taken control of several members of the staff and was using the hospital as his own private laboratory to create a new drug to enhance his own considerable powers. When Dr. Nillver discovered this and she was able to resist Mindstorm's powers he injected her with his experimental drug that had killed every test subject before her.

The drug ravaged Cassandra's body, causing massive organ failure and convulsions, but also gave her incredible mental powers. She used her newfound powers to possess Mindstorm and put an end to his terrible experiments. However as a side effect of the drug her body was terribly affected. Dr. Nillver is in almost constant pain and is able to walk only because she assists herself with the telekinesis she developed. She has become obsessed with protecting others from the horrors she faced and has decided to use her powers for good, despite her injuries, as Mind Shadow!

She treated the criminally insane and knows what they are capable of and can no longer stand by while innocents suffer as she did. The only person close to her is Michael Dawson, her longtime friend, who retired from his private practice to help Cassandra recover and now looks after her when she returns home and is too weak to take care of herself. In her secret identity Dr. Cassandra Nillver was already a renowned psychiatrist and through publications and expert testimony in high profile cases is regarded as become an expert on super villain behavior.

Mind Shadow's health is so fragile she can barely walk, let alone run, or live a normal life. She uses her Telekinesis to move around and pretend she has no complications due to her fragile health while in costume, but her rouse sometimes fails. Cassandra is aware that Michael loves her, but she believes she can't offer him the life and future he deserves. While she has accepted his help for now she wants to drive him away despite loving him as well. After his defeat at her hands, Mindstorm has a vendetta against Mind Shadow; to make matters worse he knows her secret identity!
